EXTRACURRICULAR ACTIVITIES

Head of the Application Committee, Online student organization (02/2021 - 02/2022)
As the leader of the Application Committee I have been part of developing applications that can be used internally in the student organization - and hopefully commercial.

Deputy head of Realfagskjelleren (08/2020 - 02/2022)
As the deputy head of realfagskjelleren, I have responisibility for the bar. As well as responisibility for normal operation.

PERSONAL PROJECTS

Constructing an 8-bit computer (08/2018 - 03/2019)
- Built an 8 bit computer on a breadboard, which could handle simple instructions like adding, and subtracting. The computer was built by using simple chips such as registers, adders, latches, timers and EEPROMs.

Infoscreen (06/2022 - Present)
- Developing an infoscreen for my apartment using Typescript, React, Chakra UI and firebase. The infoscreen currently containes our shoppinglistand tasks to be done in the apartment.

COURSES

Blockchain workshop w/ Equinor and KiD (09/2020)
Interactive workshop, learning how to build our own blockchain.

Svelte workshop w/Knowit (09/2020)
